

AN ISO:9001-2015 Certified company

Experience Precision Excellence

S D ELECTRICAL CONTRACTOR PVT. LTD.

ONE STOP SOLUTIONS

About Us :-

We are a comprehensive engineering solutions provider specializing in Control Panel manufacturing, Cable Tray systems, E&I (Electrical & Instrumentation) material supply, and Mechanical Works Turnkey Projects With a strong focus on quality, reliability, and timely execution, we deliver end-to-end solutions - from design and manufacturing to installation and commissioning.

Our team is committed to excellence, ensuring optimized performance, reduced downtime, and efficient project delivery. We aim to be a trusted partner for industries seeking innovative and cost-effective automation and engineering solutions.

Our Mission :-

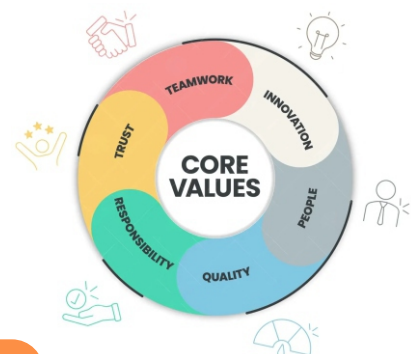

To deliver high-quality engineering, control panel solutions, cable tray systems, E&I material supply, and mechanical commissioning services with reliability, efficiency, and innovation - ensuring timely execution and complete customer satisfaction.

Our Vision:-

To be a trusted leader in engineering solutions, delivering high-quality control panels, cable tray systems, E&I materials, and mechanical commissioning services with innovation, reliability, and efficiency.

OUR CERTIFICATES

SDE Group of Companies

AOK Engineering, Bhairav Automation & Controls, Shivkripa Fabricators | Latur Food Pvt. Ltd.
Kamdhenu Dairy Farm, Pleiad Engineering Solutions LLP,
Kamdhenu Sarvsadharan Sahakari Sanstha, Nivo Solutions, Fexa Automation Technologies LLP

Turnkey Projects

S D Electrical Contractor Pvt. Ltd. Designing & Engineering, Installation And Commissioning Of Evaporator, Dryer, Distillation, Dairy, Refrigeration also (AMC) Wastewater Treatment solutions

We ensure seamless execution with a single point of responsibility, delivering projects on time with high quality, safety, and cost efficiency. Our turnkey approach minimizes client effort while maximizing performance and reliability of the entire system.

Services

- Installation & Engineering Supply-Complete electrical installation of panels, cables, and equipment
- Commissioning - Testing, startup, and ensuring system performance
- Panel Manufacturing - Design and fabrication of PCC, MCC, PLC, and control panels
- Cable Tray Supply & installation of cable tray systems for organized wiring
- Reassembly - Panel modification, upgrading, and system reconfiguration
- Solutions & Services - Turnkey electrical and automation solutions
- Distillation, Evaporator, Dryer, WTP, ETP, STP

Earthing Material

Earthing Material

- Copper/GI Earthing Electrodes
- Chemical Earthing Systems
- Earthing Plates & Pipes
- Copper & GI Strips / Wires
- Earth Rods & Conductors
- Maintenance-Free Earthing Solutions

Service Scope

- Supply of all earthing materials
- Installation & testing
- Maintenance & inspection

WE PROVIDE

- PCC (Power Control Centre) Panel
- MCC (Motor Control Centre) Panel
- APFC (Automatic Power Factor Control) Panel
- VFD (Variable Frequency Drive) Panel
- PLC (Programmable Logic Controller) Panel
- SCADA Control Panel
- DG Synchronization Panel
- AMF (Automatic Mains Failure) Panel
- Synchronizing Panel
- Feeder Pillar Panel
- Distribution Board (DB Panel)

PCC & MCC

APFC

PLC PANEL

Perforated Type Cable Tray

Designed for versatile industrial and commercial installations, our Perforated Cable Trays offer excellent ventilation and cable support with streamlined routing. The evenly spaced perforations enhance airflow, reduce heat buildup, and minimize dust accumulation improving system reliability.

Ladder Type Cable Tray

Designed for versatile industrial and commercial installations, our Perforated Cable Trays offer excellent ventilation and cable support with streamlined routing. The evenly spaced perforations enhance airflow, reduce heat buildup, and minimize dust accumulation improving system reliability.

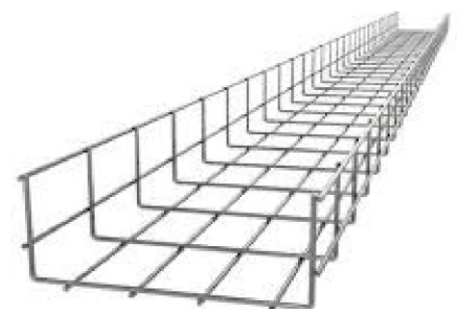

FRP Type Cable Tray

FRP (Fiber Reinforced Plastic) cable trays are lightweight, non-metallic cable support systems designed for durability and long life in harsh environments.

Wire Mesh Cable Tray

Designed for rapid deployment and easy customization, the Wire Mesh Cable Tray is ideal for telecommunications, data networks, and IT cabling. Its open mesh design ensures superior ventilation while keeping cable runs neatly organized.

Our Expertise

We specialize in delivering end-to-end automation and electrical solutions, including cable tray systems, control panel manufacturing, installation, and commissioning. Our team ensures seamless retrofitting & upgradation of existing systems to enhance performance and reliability. We also provide comprehensive Annual Maintenance Contracts (AMC) to ensure continuous operation, reduced downtime, and long-term efficiency for all industrial applications.
